- ✓ Reduces Stress and Worry for Caregivers
- ✓ Regulates 28 Consecutive Doses Based on the Prescribed Schedule and Needs
- ✓ 72 Hour Battery Back-up

Makes Taking Multiple Medications **Safe** and **Convenient!**

One of the top reasons patients are re-admitted to the hospital is missing medication doses or taking the wrong dose. While there are many reasons patients do not take their medication as prescribed, the most frequent answer is: "I simply forgot."

The **CST-LTL Medication Management System**, or MMS, automatically triggers a reminder signal each time a dose is scheduled to be taken. If a dose is missed, it contacts the CST-LTL Care Center so appropriate follow-up can be made.

Convenient, cost-effective and easy to use, the MMS makes sure medication is dispensed on-time and in the right amount.

CST-LTL is Always-On: All CST-LTL products are equipped with back-up power and supervisory features. CST-LTL's primary and back-up Care Centers are fortified with state-of-the-art monitoring technology and exclusive 2-Way ClearVoice Technology designed to efficiently manage unique power, connectivity and capacity challenges.

CSTMMS Medication Management

CST-LTL MMS IS RECOMMENDED FOR PATIENTS AND CLIENTS WHO:

- Take more than 3 medications per day
- Take some pills once per day, some twice per day or more—and have to remember which is which
- Sometimes forget which pill is for what purpose
- Have trouble opening the medication containers
- Find pills in a pocket or on the floor that were missed or dropped
- Sometimes take less medication than prescribed because of financial concerns
- Keep medications in different places around the house
- Understand all the purposes, effects, instructions and dosages for their medications

If your patients or clients face these issues, it's time you recommend CST-LTL MMS.

HERE'S HOW IT WORKS:

- ✓ We work directly with caregivers to set-up customized medication distribution schedules.
- ✓ At the scheduled times, the medication dispenser distributes single or multiple medications up to four times a day from the locked container.
- ✓ The tray then automatically rotates clockwise and triggers the reminder signal.
- ✓ Opening the container door silences the signal for that dose and resets the unit for the next dose.
- ✓ Most importantly, MMS contacts our Care Center when medication doses are skipped, so appropriate follow-up can be made with various caregivers.

Regulates 28 Consecutive Doses	
Doses/Day	Refill the Unit Every...
1 dose/day	28 days
2 doses/day	14 days
3 doses/day	9 days
4 doses/day	7 days

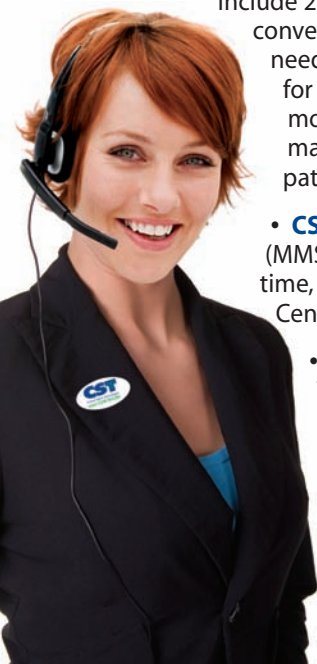

About CST-LTL

CST-LTL brings advanced technology into the home, allowing the user to enjoy the freedom of independent living with the peace of mind that help is instantly available. **CST-LTL's** full line of personal emergency and medical response systems are easy to use, affordable and effective, helping to improve the health and safety of our users. Best of all, they are connected to the best Care Center in the industry, providing superior service and monitoring 24/7.

CST-LTL's products and services help support independence, prevent premature institutionalization, relieve isolation and improve quality of life.

- **CST-LTL's** Personal Emergency Response Systems (PERS) include 2-Way ClearVoice technology for instant conversation with our Care Center whenever needed. Our PERS systems can be programmed for pendant alerts, fall detection, security monitoring, environmental monitoring and many customized services to meet your patient's needs.
- **CST-LTL's** Medication Management Systems (MMS) organize and dispense medications on time, every time, and alert the patient and Care Center when a dose is missed.
- **CST-LTL's** Vital Signs Gateway (VSG) TeleHealth services help Clinicians and patients monitor and manage illness from the comfort of home.

At CST-LTL, we provide peace of mind at the press of a button.

CST-LTL Care Center

Even the best technology is only as good as the people who monitor it. Every **CST-LTL** Care Center Representative is CST-LTL-certified with extensive training in care service and emergency response. With the press of a button or signal from a CST-LTL unit, our Care Center Representatives are instantly in touch with the patient, and have immediate access to personalized client files with instructions for family or caregiver contact and appropriate emergency response.

CST-LTL's exclusive 2-Way ClearVoice technology provides crystal clear communication between the patient and Care Center even at longer distances or when the patient's speech may be compromised. This is more than just convenience – clear communication can save lives.

CST-LTL's Care Centers provide multi-lingual communication, fully redundant back-up systems and the most innovative technology in the industry. Combined with our exceptional staff and ClearVoice technology, CST-LTL Care Centers provide the most complete and reliable support services 24 hour a day, 7 days a week.
